

Mercedes* All Keys Lost Cable Kit ADC2600 - Code D756298AD

May 2023

The 'plug and play' solution to programme new slot keys for popular Mercedes* models in an all keys lost situation.

ADA2600

ADC2601

ADC2602

ADC2603

ADC2604

ADC2609

What does the Cable Kit do?

The Mercedes* Cable Kit ADC2600 allows new keys to be programmed safely by connecting directly to the Electronic Ignition System (EIS) of the vehicle.

To perform this procedure it is necessary to remove the EIS from the vehicle, after which the cable simply connects to the EIS. The power cable connects the EIS cable to a 12v vehicle battery. The cable kit works in conjunction with the Mercedes* Smart Programmer ADC260 (supplied separately).

Kit contents

- ADA2600 - EIS Removal Tool
- ADC2601 - EIS Connection Cable
- ADC2602 - EIS Connection Cable
- ADC2603 - EIS Connection Cable
- ADC2604 - EIS Connection Cable
- ADC2609 - Power Cable (12v Battery Supply)

What else is needed?

Smart Pro

ADS2298 Programming Software

ADC260 Mercedes* Smart Programmer

Silca slot key HU106S23

Full support, including connection locations specific to each vehicle model, at mykeyspro.com under "Guided Processes".
