

Rekord Pro S

The compact, user-friendly
key cutting machine

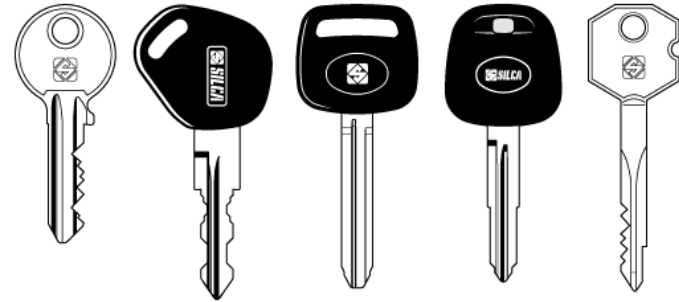

dormakaba Group

The compact, user-friendly key cutting machine

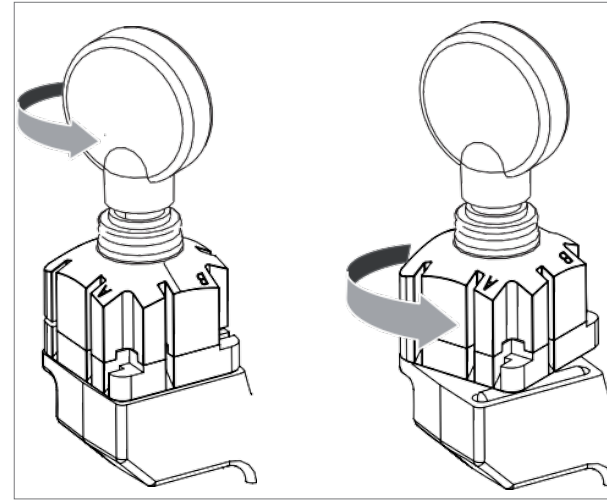

Rekord Pro S is the compact mechanical key machine for cutting flat cylinder, flat vehicle and cruciform keys.

The perfect solution for businesses cutting 2 to 4 thousand keys per year or around 10 keys per day

Quick rotation clamps

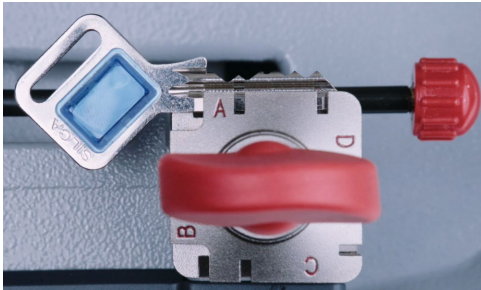

Rekord Pro S uses the quick rotation clamps familiar to Silca Futura users

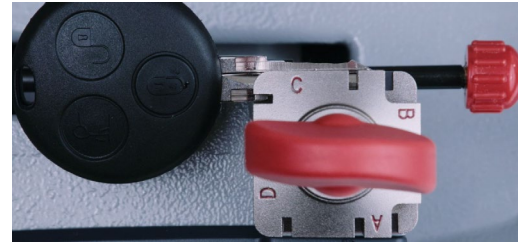

- The clamps can be quickly and smoothly turned without first needing to be removed thanks to the unique, **patented** rotation system.
- Nickel plated, sintered metal composition for strength and durability

Four-sided clamps to cut a wide range of keys

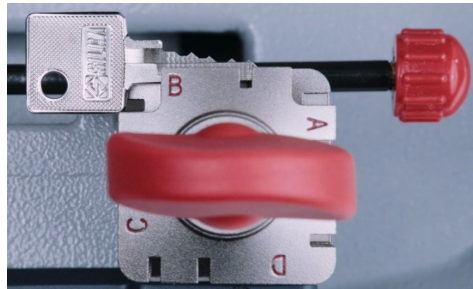

- Large and small flat residential keys, cruciform keys and double-sided automotive keys

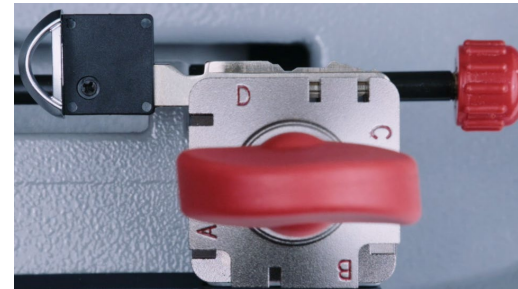

- **Side A:**
for keys to be fitted
on their rear, keys
with double cuts
without groove and
cruciform keys

- **Sides C and D:**
for keys to be cut
on both sides
and locked on
the groove

- **Side B:**
for keys placed on
their rear needing
cuts with a depth of
less than 3.9mm

Smooth, precise carriage movements

The easy to operate carriage runs smoothly to ensure a precise, 'first time' duplicate key

- Self-lubricating DU® bushes guarantee smooth carriage movements
- Left hand lever ensures precise carriage shifts without play
- Carriage is released by means of a short lever under the front handle

New long-life TiAlN coated cutter and TYNEX coated de-burring brush

- Titanium aluminium nitride (TiAlN) coating helps maintain a lower temperature during cutting to prolong cutter life
- Cutter made from HSS super-rapid steel

- TYNEX coated de-burring brush ensures uniform abrasion and a perfectly finished key

Ample tool storage areas

- A wide accessories area equipped with an anti-slip mat on the upper part of the machine makes it easy to reach frequently used items
- Below the machine body there is a practical moulded storage compartment for stocking other accessories.

Safety

The on-off switch features a safety cut-out preventing the machine from starting by itself after a power interruption.

- Rekord Pro switches itself off after a power interruption
- The machine need to be manually restarted to continue the cutting operation

Automatic cutter starting

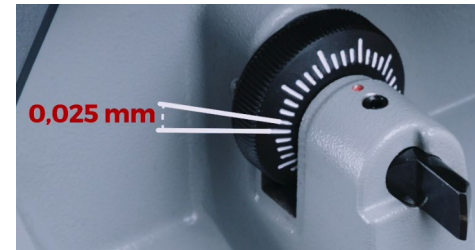

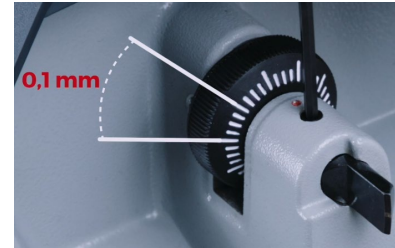

For extra safety the cutter motor runs only during the key cutting operation.

- Cutter starts automatically when the carriage lever is lifted and stops automatically when the lever is released.
- No need to press an on/off button.
- No risk that the cutter is accidentally left on.

Easy tracer regulation

- Rekord Pro is equipped with a mechanical tracer point with an easy-to-read micrometric adjustment ring for accurate regulation and a precise cutting result.

Peace of mind investment

- A dependable key cutting machine with a long record of delivering returns for thousands of businesses worldwide
- 2 year warranty guaranteed by Silca
- Designed and manufactured in conformity with CE standards
- Made in Italy

Rekord Pro S has been designed and manufactured in conformity with CE mark European standards.

What's new summary

- Quick rotation clamps
- New titanium aluminium nitride coated cutter (TiAlN) lowers the temperature of the cutter during operation to prolong cutter life
- Updated styling and colours
- Grey body colour like Silca Bravo
- Easier to read tracer point marked in one hundredths

Technical Data

Power supply	230V – 50/60Hz. Absorbed power 440W 2A
Cutter motor	Single phase 230V 56/60Hz
Prismatic cutter	HSS Super rapid steel titanium aluminium nitride (TiAlN) coated
Cutter speed	1350/1620 rpm
Clamp	Rotating 4-sided
Movements	By gear on rectified carriage
Carriage Runs	43mm (max. length of cuts)
Dimensions	width: 330mm, depth: 430mm, height 270mm
Weight	19 Kg
